

THE POWER OF EUCALYPTUS PULP

More than just a raw material,
pulp is the source of our inspiration.

A world of possibilities encourages us to go
further, renewing life through innovability.

Innovation is present not only in the final product but at every stage of the process. **Suzano was the world's first company to produce pulp and paper derived 100% from eucalyptus fiber** on an industrial scale. By combining technology and knowledge about nature, we maximize the efficiency of eucalyptus pulp and develop even more competitive products.

We are committed to the continuous improvement of processes and products to meet the needs and expectations of end consumers. Suzano's presence in diverse links of the chain as a vertically oriented producer imparts greater agility and offers deep knowledge of the entire process.

Thanks to the meticulous work of a technical team dedicated to enhancing the technical properties of pulp, **we bring competitiveness and efficiency to the production process of each customer.**

WE ARE GLOBAL LEADERS IN
HARDWOOD PULP WITH A CAPACITY
OF 10.9 MILLION TON/YEAR

Our product portfolio includes:

- Full bleached Eucalyptus pulp
 - ECF and TCF bleaching process
- Semi bleached Eucalyptus pulp
- Unbleached Eucalyptus pulp

TRENDS TO FAVOR BHKP

- More flexible paper machines
 - Fiber improvements through R&D – softness and tensile
 - Limited RCP/SOP availability
 - Cost competitiveness vs BSKP
-

**Do you know that we have 100%
BEKP tissue production in Brazil?**

OUR PULP MILLS

and ports

TRÊS LAGOAS
3.25 million tons/yr

ARACRUZ
2.34 million tons/yr

LIMEIRA
0.40 million tons/yr

IMPERATRIZ
1.59 million tons/yr

SUZANO
0.17 million tons/yr

Porto de Itaquí

VERACEL*
0.56 million tons/yr

MUCURI
1.48 million tons/yr

JACAREÍ
1.1 million tons/yr

Portocel

Porto de Santos

*equivalent to 50% of Suzano participation in the JV with Stora Enso

STANDARD PULP PRODUCTION PROCESS

Renewable fiber sourcing with planted and harvested eucalyptus:

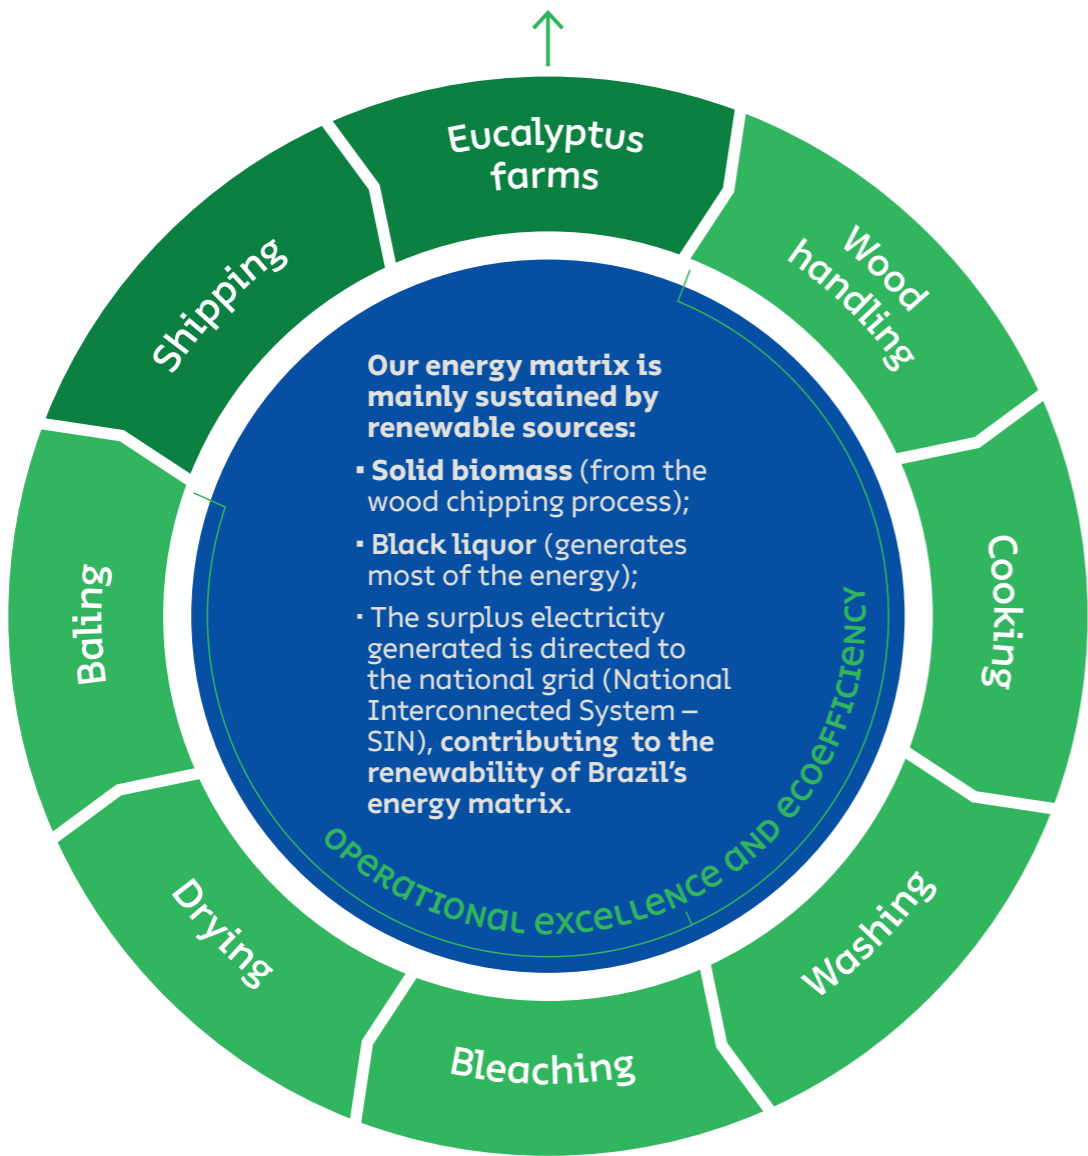

Zero deforestation policy.

Product that preserves the native vegetation and biodiversity.

Storing more tons of carbon, for an even more positive climate impact.

SUZANO STRATEGICALLY POSITIONED TO BETTER SERVE ASIA

Competitive cost to serve our customers.

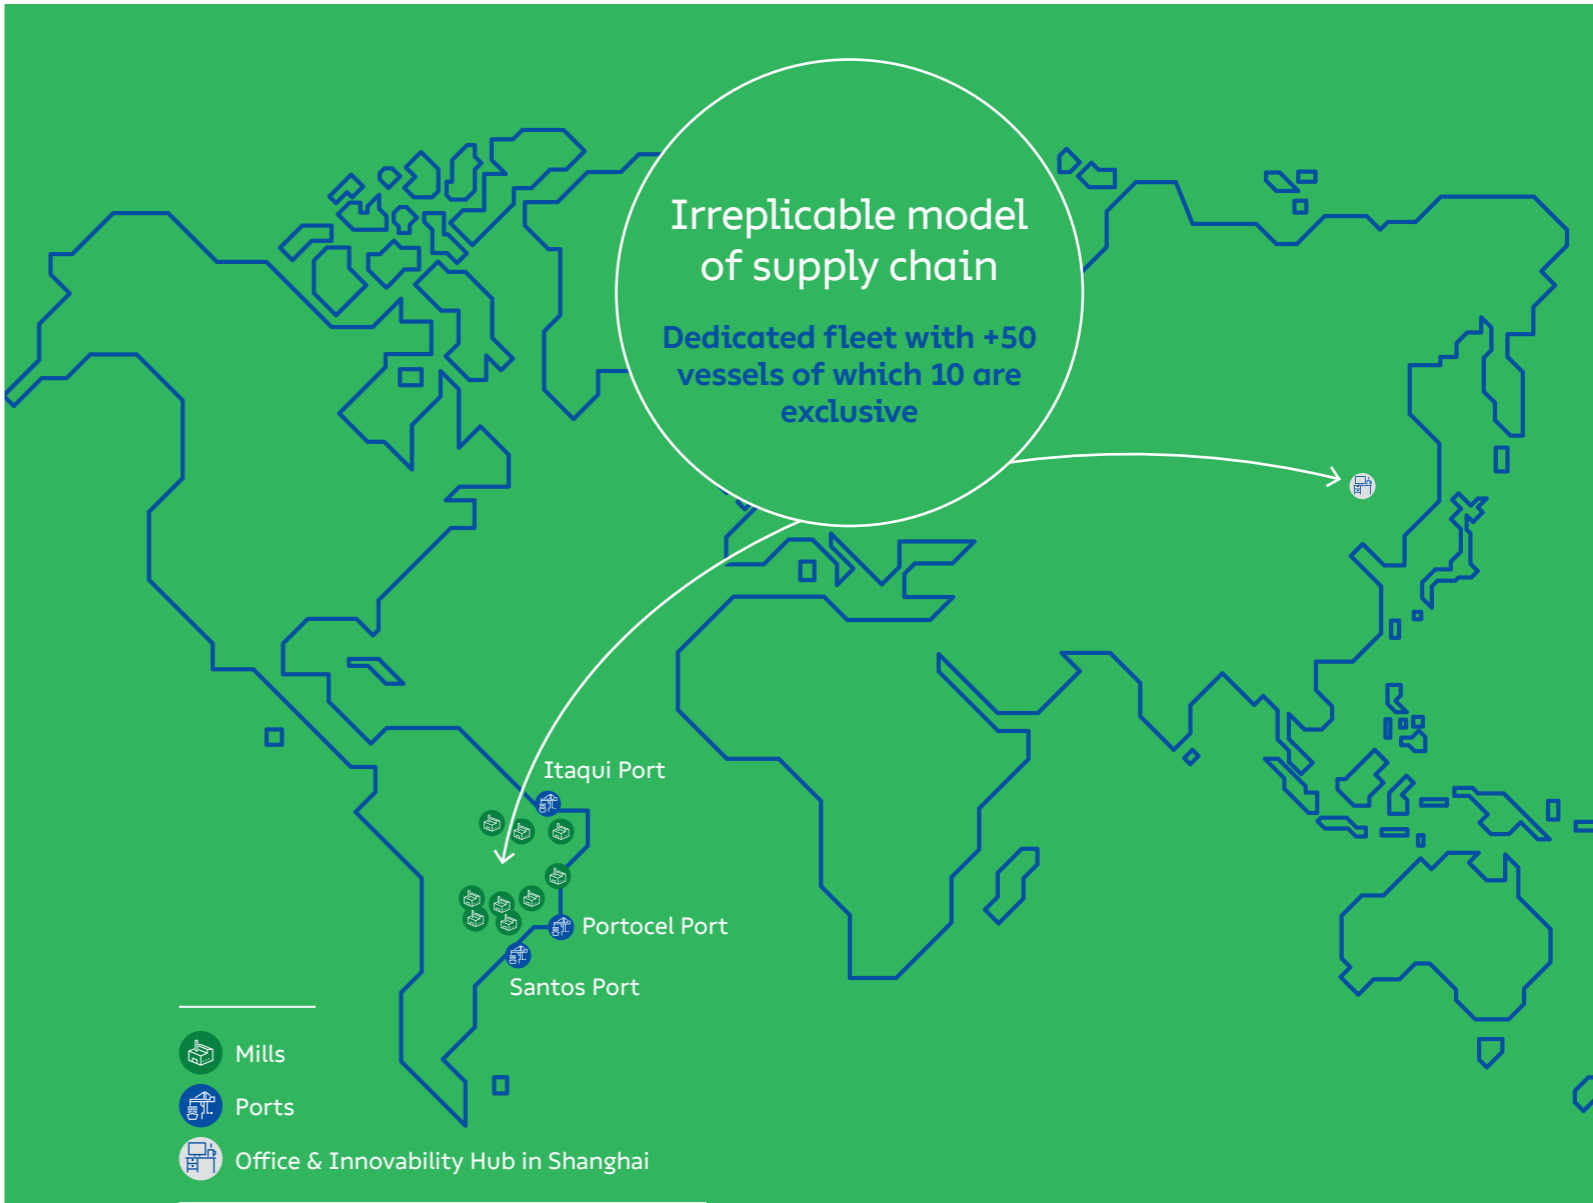

Track record with our dedicated local team.

Focus on quality service level with expanded logistics structure.

Specialized technical service team locally-based.

GROWING PULP, SEEDING THE BIOFUTURE

PULP IS OUR NATURE

We see pulp as the sustainable and innovative answer for many countless world challenges.

A CHOICE FOR A BETTER FUTURE

A future where bioconsumption is part of our daily habits.
